

Robust Context Propagation in AI Agent Systems

Natalie Lambert

Abstract—**TODO**

Index Terms—artificial intelligence, multi-agent, single agent, orchestration, benchmark, context, reliability.

I. INTRODUCTION

A. Background

B. Problem Scope

II. RELATED WORK

Reference a large portion of papers from recent literature review.

A. Multi-Agent Systems

Discuss existing literature on orchestrating multi-agent systems

B. Context Management

What context management schemes exist for multi-agent systems?

C. Agent System Reliability

Agent scalability and reliability have been identified as key issues in the literature [1], [2].

III. METHODOLOGY

A. Research Questions

B. Experiment Design

C. Benchmark and Metrics

D. Hypotheses

IV. PROJECT TIMELINE AND RISK MANAGEMENT

V. CONCLUSION
